About Us

With nearly a decade of operational experience, Istanbul Jet Aviation and Fuel Services has an optimal supply chain structure with a strategic relationship network consisting of many national and international oil companies, refineries, local fuel and airport service providers such as **Petrol Ofisi, SOCAR, Thy Opet, Shell, Air BP, OMV, Air Total, Repsol, Eni SPA, Star Refinery and TÜPRAŞ**, with special credit limits and competitive price structure at nearly 500 airports in more than 100 countries.

It carries out its activities with the vision of sustainable growth with its worldwide wide supply network, 24/7 service, sector experience, experienced human resources and SAP-based information infrastructure. nd Fuel Services Inc. has established itself as a trusted name in the industry. Since its inception, the company has consistently delivered exceptional service and performance through its extensive national and international sales network, as well as strategic business partnerships.

Certified under both the International Sustainability and Carbon Certification (ISCC EU) scheme and the ISCC CORSIA certification for international aviation, İstanbul Jet has expanded its operations to include Sustainable Aviation Fuel (SAF) trading. Through this strategic step, the company has become an active participant in the sustainable production and supply chain of biomass, biofuels, and other renewable feedstocks, reinforcing its commitment to the decarbonization of the aviation industry.

Supplying 1 million 300 thousand cubic metres of aviation fuel annually and providing physical Jet A1 fuel supply and replenishment services at Dalaman and Gazipaşa Airports, İstanbul Jet's value-added initiatives include İstanbul Marine Fuels Inc. which was established with 100% İstanbul Jet capital and provides services on an international scale in marine fuel supply, TASCOT with its fuel stations located in strategic locations and CTG Elektrik Inc., which provides electric charging stations services established with the vision of sustainable transportation solutions.

Expanding its expertise, Istanbul Jet has entered the land fuel sector, owning strategically located fuel stations. With a strong financial foundation and a commitment to maintaining the highest standards of quality, Istanbul Jet continues to enhance its local and global competitiveness, contributing to the Turkish economy.

Istanbul Jet Aviation and Fuel Services Inc. is an IATA member.

❖ Mission

As a global and local supplier of air, land, and marine fuels, our mission is to be a leading company in our industry by providing high-quality, timely, costeffective, and reliable fuel solutions that create value for our customers.

❖ Vision

Our vision is to be a trusted, innovative, and accessible leader in the energy supply and distribution sector, while maintaining a strong commitment to environmental and social responsibility.

❖ Values

Honesty, integrity, and respect for people and nature are at the heart of our values. We collaborate with teams dedicated to continuous improvement, innovation, and a culture of growth and responsibility, guided by the principle of delivering strategic and efficient work.

❖ Group Companies & Services

❖ Air Operation

Istanbul Jet supplies JET A1 aviation fuel through its storage facilities at Gazipaşa Airport (1,500,000 liters) and Dalaman Airport (2,100,000 liters).

❖ Land Operation

Istanbul Jet also operates a total of 20 fuel stations, building on its expertise in aviation fuel supply.

❖ Marin Operation

Istanbul Marin Fuels provides high-quality marine fuel and replenishment services to all types of commercial vessels, including fishing boats, dry cargo ships, vehicle carriers, and passenger transport vessels operating in the Mediterranean, Black Sea, Marmara, and Aegean regions.

❖ Electric Charching Stations

CTG Elektrik A.Ş., established with 100% AVIAVIA capital, obtained its license from the Energy Market Regulatory Authority (EPDK) in July 2024 and has commenced operations in the field of installing electric vehicle charging units.

! Sustainability

Sustainability Approach

As one of the pioneers of green transformation with sustainable energy solutions in the aviation sector, we continue to add value to the industry with innovative fuel solutions that reduce carbon footprint for a cleaner future.

Sustainability Policy

Istanbul Jet Aviation and Fuel Services has received the International Sustainability Carbon Certification (ISCC EU) for its sustainability projects as of January 7, 2025. With this certification, Istanbul Jet Aviation and Fuel Services has added the trade of a sustainable version of Jet A-1 fuel and Sustainable Aviation Fuel (SAF), a cleaner alternative to fossil jet fuels, to its operations. This certification affirms the company's role in the sustainable production and supply chain of biomass, biofuels, and other renewable raw materials.

İ Dalaman Airport

İ Jet A1 Fuel Storage & Supply Facility

The Dalaman Airport (DLM) Jet A1 Fuel Storage and Supply Facility, established with a **€5 million investment**, will provide **Jet A1 fuel supply services** to both **commercial airlines** and **private jets** operating **domestically and internationally**.

Istanbul Jet inaugurated the facility in **October 2024**, with the participation of **business partners, employees, and local Dalaman officials**. With a **total investment of €5 million**, the facility spans **4,000 square meters**.

Following **major aviation fuel suppliers** such as **Petrol Ofisi** and **THY-Opet**, **Istanbul Jet** is now the **third physical supplier at Dalaman Airport**. The facility boasts a **total storage capacity of 2,115 cubic meters**, with **90% of its Jet A1 fuel sourced from STAR and TÜPRAŞ refineries**.

İ Gazipasa Airport

İ Jet A1 Fuel Storage & Supply Facility

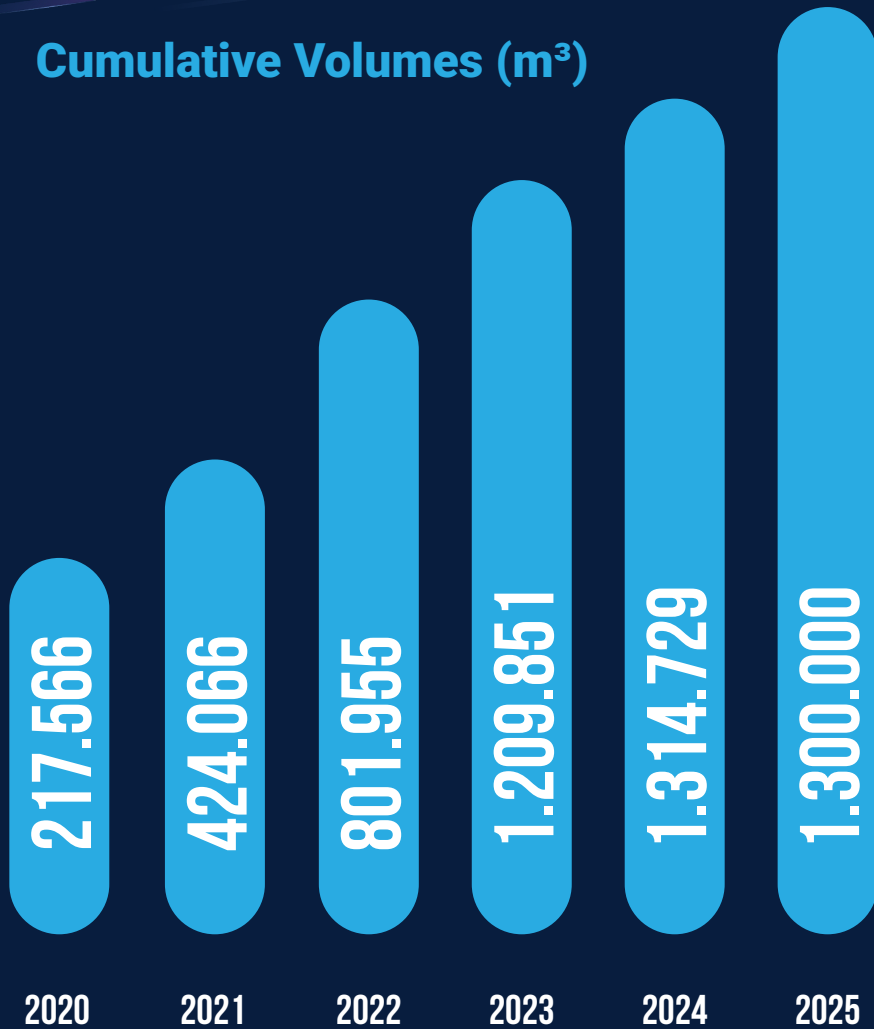

Gazipaşa Airport (GZP) serves as a popular alternative to Turkey's largest tourism hub, **Antalya Airport (AYT)**. **Istanbul Jet Aviation** is the **exclusive jet fuel supplier at Gazipaşa Airport**, operating storage facilities with a **total capacity of 1,500 cubic meters**.

Through this facility, we **support over 5,000 flights annually**, delivering approximately **30,000 metric tons of fuel**. **Istanbul Jet Aviation** remains committed to meeting the **growing fuel demands at Gazipaşa Airport**, ensuring **reliable, high-quality service** for both **domestic and international flights**.

CORPORATE SOCIAL RESPONSIBILITY

İSTANBUL JET
HAVACILIK VE YAKIT HİZMETLERİ

Corporate Social Responsibility

Fenerbahçe İstanbul Jet Wheelchair Basketball Team Title Sponsorship

İstanbul Jet Add Value to Sport

İstanbul Jet, guided by its mission to add value to sports, is the jersey sponsor of the Fenerbahçe Wheelchair Basketball Team for the 2021-2023 season and will be the title sponsor for the 2024-2025 and 2025-2026 seasons.

Corporate Social Responsibility

'Drive Kindness Forward'

İstanbul Jet and Lösev Continue Their Journey with the Motto 'Drive Kindness Forward'

İstanbul Jet continues its partnership with LÖSEV within the framework of corporate social responsibility. Through this partnership, the company aims to increase awareness of leukemia and cancer and provide socio-economic support to registered families by supporting the distribution of in-kind aid to children and adults battling leukemia and cancer throughout Turkey with fuel and transportation.

OUR OTHER GROUP COMPANIES

İSTANBUL JET
HAVACILIK VE YAKIT HİZMETLERİ

Fast and efficient charging for electric vehicles

CTG Elektrik Inc. was established with 100% AVIAVIA capital and obtained its EMRA license in July 2024. The company specializes in the installation of electric vehicle charging stations, offering cutting-edge, fast, and efficient charging solutions for next-generation vehicles.

 www.ctgelektrik.com

CTG Elektrik strategically deploys stand alone charging units at key locations, including fuel stations, large parking areas, residential complexes, ring roads, highway rest stops, and shopping malls, ensuring seamless accessibility for customers. The company serves with high-speed direct current (DC) charging and alternating current (AC) technology.

Reliable Global Marine Fuel

Founded in 2022 with 100% capital from Istanbul Jet Aviation and Fuel Services Inc., Istanbul Marin Maritime Fuels Inc. specializes in high-quality marine fuel supply and bunkering services.

 www.istmarinfuel.com

Istanbul Marin sells tax-exempt (ÖTV-free) marine diesel to all commercial vessels operating within Turkey's cabotage limits in the Mediterranean, Black Sea, Marmara, and Aegean regions – including fishing vessels, dry cargo ships, and car & passenger ferries. In addition, with its Bunker Delivery License, the company supplies marine fuels (diesel, lubricants, distillates, and residuals) exempt from Special Consumption Tax (ÖTV) and Value Added Tax (VAT) to foreign-going vessels.

As of July 4, 2024, Istanbul Marin has obtained a 15-year 'License for Bunker Delivery' from EMRA, enabling it to expand into international sales. The company takes a solution-oriented approach, supplying marine fuels of various viscosity and sulfur levels, all meeting international standards.

Confidence on the Road, Quality in Fuel

With a customer-centric approach, we are dedicated to meeting all our customers' fuel needs by offering high-quality fuels and a comprehensive range of services at our stations. Committed to exceptional quality standards, we continuously strive to enhance performance and fuel efficiency, ensuring the best experience for our customers' vehicles.
